The essence of L'ADONÉ

The name L'ADONÉ is derived from Ladon, the serpent-like dragon in Greek Mythology placed in the Garden of Hesperides to protect the sought after golden apples.

According to legend, Ladon was overcome by Hercules and placed among the stars. To this day the body of Ladon is entwined around the North Pole in the form of the Draco Constellation.

Each year, this constellation's meteor shower offers an astonishing display of shooting stars to many who seek a brief escape from ordinary life.

This stellar display exemplifies
the essence of L'ADONÉ;
a discovery of the different senses,
and of the treasures offered
by the Planet Earth

At L'ADONÉ parfums each fragrance is viewed as a piece of art. As with a painting, a musical composition or a literary work, a perfume is open to a variety of interpretations. Similar to an artistic creation, the individual components of L'ADONÉ parfums come together to create a fragrance masterpiece.

A UNIVERSE of nuances

The ELENYA perfume collection is composed of nine scent compositions dominated by a leathery oriental heart. The Exotic blend of Teak, Sandalwood, Eaglewood and Amberwood together with spicy Mediterranean Labdanum and Cistus accent the top notes. The luxurious Oriental middle notes are rounded off with a hint of Saffron and an Arabic Floral Rose scent, with an accord of warmly embracing Kashmir Wood.

ELENYA azur and ELENYA gold, the first in this collection are now joined by our newest fragrances, ELENYA white and ELENYA black.

ELENYA

azur

The origins of the ELENYA fragrance "azur" lead to the famous French city of Grasse on the beautiful Côte d'Azur.

The first in the line of ELENYA fragrances has been justly named "azur", or skyblue in homage to its fascinating origins.

ELENYA azur is an Oriental Woody composition. The main top note is characterised by the exclusive scent of Teak Wood, accented by notes of Violet Rose blossoms and a hint of Saffron. The middle notes are rounded off by a slightly animal Eagle Wood, balanced and deepened by notes of Leather and Tobacco.

ELENYA

gold

Symbolically, gold represents only the best. This precious metal has been the chosen metal of gods and kings since early times.

The fragrance ELENYA gold signifying shining light, delivers light, the warmth of the sun, and beauty.

ELENYA gold is an oriental floral composition that opens with notes of Black Orchid and Sicilian Bergamot. White Lemon Blossoms and a drop of Cardamon accompany this combination accented by notes of Sandalwood and Coconut, embedded in precious Iris Blossom, rounded and deepened by Vetiver.

ELENYA

white

The perfect colour, white symbolizes light, faith, joy and happiness. ELENYA white offers a glimpse into the collection, defining its mysterious sensual character and timeless elegance without revealing too much.

ELENYA white is an elegant oriental floral scent with an intense top note of Jasmine Samba rounded off with soft Iris powder, fresh Bergamot and Tuberose. Siam Benzoin adds a sensual, full-bodied character to the Peach Blossom heart note. ELENYA white's Patchouli foundation enhances the warm, velvety Sandalwood in the base note balanced by a sensual Musk accord.

ELENYA

black

ELENYA black, associated with the dark blue starry night sky and the Dragon constellation expresses timeless elegance and dignity, yet is full of mysticism and a deep secret.

ELENYA black is a warm, spicy oriental scent. Olibanum Frankincense combined with Pink Pepper, beguiling Ylang and Bergamot define the top note. Smoky-resinous Black Amber, the warm scent of Cloves and earthy Cyprid are rounded off by harmonizing Orris to form the heart note. The Ambra-like Balsamic and caramelizing Labdanum base note is underlined with Patchouli, Ambre and Tonka.

The ELENYA fragrances are presented in an exclusive box.

Once the insert is removed,
it is transformed into
an attractive keepsake.
